

Sponsorship Application Process

for the

[5th Annual UK Animal Law Conference: Using law to advance effective animal protection](#)

Sponsorship: We are delighted to be able to offer a limited number of sponsored tickets for the 5th UK Animal Law Conference on 4-5 June 2025. If you apply successfully, you will receive a free two-day ticket. This will enable you to attend all the conference sessions and to enjoy the conference catering. Please note that if you wish to attend the conference dinner, there is a separate cost for this and a ticket must be purchased. This sponsorship is currently made available jointly by the UK Centre for Animal Law and Birmingham City University.

Application process: If you would like to apply for a sponsored ticket, please email ian.offor@bcu.ac.uk by 1 April with the following attachments: (1) proof of student status (enrolment letter or similar indicating start and end dates of degree) **or** proof of address in a country [defined as developing by the OECD](#); and (2) a 200 word statement outlining the impact your attendance at the conference would have upon your professional development or your work toward full legal protection for animals (you may wish to refer to the conference theme and vision for this, which are below).

In the event that we receive more applications than available sponsored tickets, we will utilise a competitive process in which all 200-word statements will be anonymously reviewed and scored by reviewers from the UK Centre for Animal Law and Birmingham City University. You will be contacted with an outcome and, if you are successful, with instructions on how to register for the conference by purchasing your free ticket through our Eventbrite.

Conference Theme: Using Law to Advance Effective Animal Protection

Conference Vision: The UK Animal Law Conference is the nation's definitive meeting place for academics, lawyers, NGOs, and students working toward full protection for animals in the UK's law and internationally. As such, the conference aims are:

- Educating one another about the national and international legal landscape for animals, the latest research, and recent updates on law, policy, and education.
- Network building to bridge the gaps between academics, lawyers, NGOs, and students interested in animal law in order to enhance the impact of work toward full protection for animals in law.
- Collaborating to generate new ideas, identify synergies, and share good practice toward better legal futures for animals.
